EXPERIENCE **FREELANCE DEVELOPER**

2014 - Present

ATYPIC - Junior Interactive Developer

December 2013 - October 2014

While at Atypic, I worked closely with our group of designers, SEO engineers, and project managers to make sure every website exceeded expectations of the clients. Some of the primary technologies used were HTML, CSS, and javascript (jQuery). I also utilized backend technologies such as PHP, MySQL, and frameworks such as Laravel to integrate the front end of our sites with Atypic's custom CMS. Additionally, I worked closely with project managers to perform QA tasks, assisted members of the SEO team to ensure event tracking, and collaborated with other developers in our three person development team.

WINTHROP UNIVERSITY - Lab Operator

August 2013 - June 2014

Assisted students with various computer software in multiple labs across campus. I also maintained lab equipment, such as printers, projectors, and computers.

WINTHROP UNIVERSITY - Technology Specialist

July 2013 - September 2013

Working with various Deans of the college, I developed and maintained a website for the College of Education's accreditation documents.

WINTHROP UNIVERSITY - Computer Lab Instructor

August 2012 - December 2012

As a part time instructor, I created, graded, and taught students course material for CSCI labs including Microsoft Office Suite and the Adobe Suite.

CLOVER STATION RESTAURANT - Waitress

June 2009 - December 2013

During my time as a waitress, I assisted, served, and scheduled parties, as well as aided restaurant managers with scheduling and planning.

BROWN'S HEATING & PLUMBING, INC - Administrative Assistant

June 2008 - December 2013

I dealt customer complaints, assisted staff with recording and locating information. Other job duties included attending to mailings, invoice filing, and other office administrative duties.
